Complete Cashless System

Point of Sale

Operate your entire business with one integrated system

Profit Centers are managed from one central hub, including Cashless, Food & Beverage, Capacity, Event Booking, Redemption, Online Commerce, and more. IdealOne is the single solution to make your business the most efficient and profitable.

Access Control Entry

Control your attractions or gates with or without turnstiles

Indoor and outdoor solutions for unattended turnstiles, fixed/attended scanning, or handheld devices. Increase control, improve guest experience while reducing labor using IdealOne's access control system.

Cashless

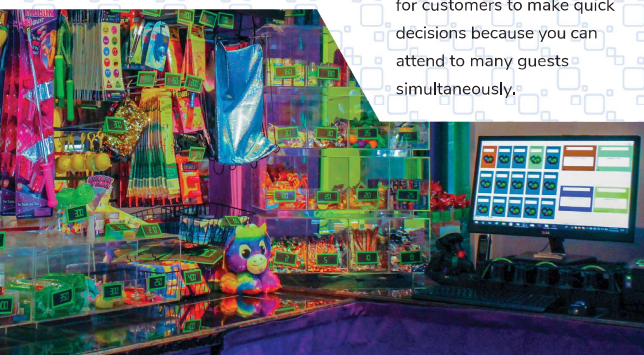

Maximize revenue and guest experience while streamlining operations

One prepaid game card or wristband grants access to your entire facility. Customers who use cashless typically spend 15% more than they would with cash or tokens. Eliminate the expense of tokens, tickets and labor.

Redemption

Improve your guest experience and save on labor

The redemption counter is often the last impression of your business, so make it a great one with IdealOne. Manage eTickets and inventory with an easy-to-use scanning system. There's no more pressure for customers to make quick decisions because you can attend to many guests simultaneously.

Mobile Ordering App

Increase sales by simplifying how your guests place orders.

F&B Ordering

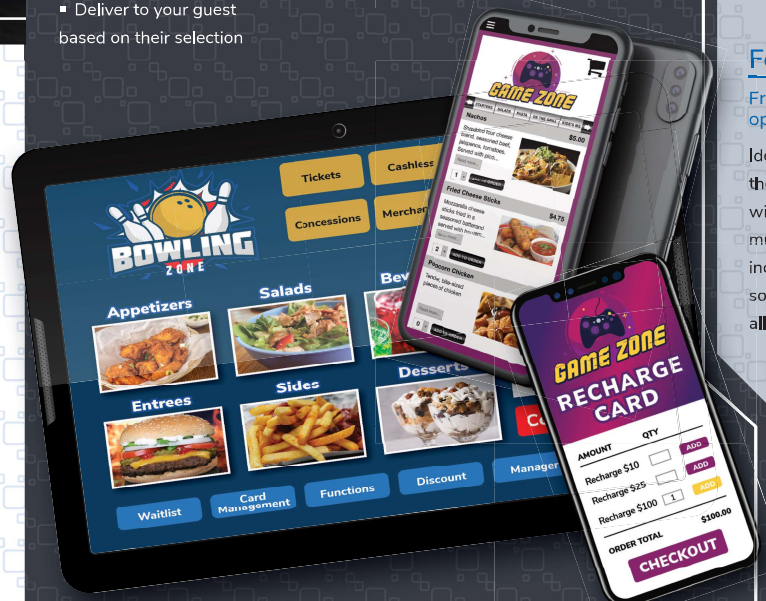

Make it easy for your guests to place orders with their phone

- Put your menu directly on your guests' phone
- Place orders directly to the kitchen using a securely saved credit card
- Deliver to your guest based on their selection

Game Value Purchasing

Put the power in the pocket of your guests

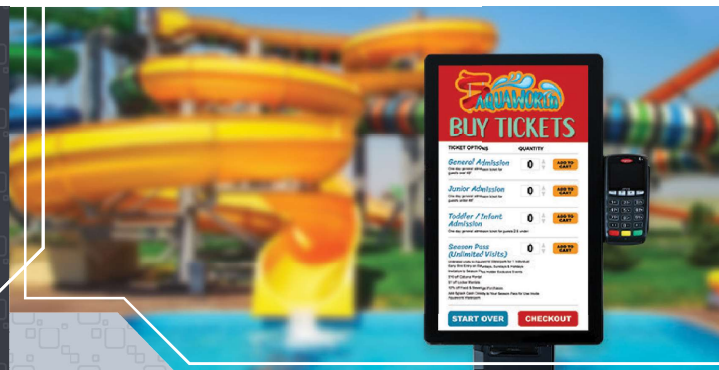

- Use saved credit cards
- Recharge cards/bands that belong to you or your family members
- Monitor/manage your kids' cards

Mobile POS

Take the sale to your guest

- A handheld POS that can go anywhere - cabanas, tables, lanes or parties
- Take orders for food and beverage, sending directly to the kitchen
- Process payments and tips with mobile credit card terminals
- Manage and recharge game cards right on the arcade floor
- Sell and print tickets for admission or attractions

Multiple Purchasing Options

Food & Beverage

From simple concessions to fine dining, and even full service bar operations, IdealOne is your complete solution

IdealOne has invested years perfecting its F&B capabilities so that it offers all the features necessary to operate a full service restaurant and bar. Beginning with active seating charts and wait lists/text notifications, and ending with multiple tip options, every step along the way is covered. Kitchen management includes choices for printers and/or displays everywhere you need them, with sophisticated routing options. Comprehensive table and check management allows you to offer the highest level of service. Inventory tracking, including the ability to suggest smart orders and recipe building, allow you to maintain appropriate levels, control cost, and save time. Saving credit cards securely allows you to protect running tabs, while not requiring you to physically hold guests' credit cards. Many more tools are available to give you control over your operation and make it run smoothly.

Self-Service Kiosks

Make it easy for your guests to make purchases and reduce labor

The IdealOne self-service kiosk offers great guest convenience and considerable time savings.

Guests can use kiosks to purchase entry tickets, buy and reload game cards, and even order food. Kiosks allow you to increase revenue, reduce operating costs and maximize the effectiveness of your employees.
